Summary

A dedicated Full Stack MERN Developer with expertise in building scalable, user-friendly, and visually appealing web applications. Proficient in JavaScript, React.js, Node.js, Express.js, and MongoDB, with hands-on experience in end-to-end development. Passionate about clean code, performance optimization, and problem-solving.

Additionally, I am a Technical Mentor, guiding aspiring developers through practical coding, project-based learning, and strong conceptual understanding.

Experience

Full Stack Developer
Softvision Global Services Private Limited
Advisory & Technology Services Company
June 2023 – September 2024

- Developed and maintained scalable full-stack web applications in an advisory-driven environment.
- Built responsive frontend components using React.js and Next.js, focusing on performance and usability.
- Designed and developed RESTful APIs using Node.js and Express.js.
- Managed MongoDB databases including schema design, indexing, and query optimization.
- Implemented authentication, authorization, and role-based access control.
- Collaborated with cross-functional teams to deliver business-aligned technical solutions.

Technical Mentor
Kalvium
October 2024 – Present

- Mentoring students in Data Structures, Algorithms, Web Development, and Problem Solving.
- Conducting technical sessions, code reviews, and personalized feedback sessions.
- Supporting students in building industry-level projects and strengthening coding fundamentals.
- Collaborating with academic teams to design hands-on, real-world learning experiences.

Technical Skills

- Java Script | React JS | HTML | CSS | NodeJS | MongoDB | Python

Soft Skills

- Communication | Adaptability | Problem solving | Time management
